

The Sarah Faith Hogan Foundation raises donations through personal and corporate donations, fundraisers and special events. We disburse one time gifts of \$5000.00 to nominated and vetted families that have infants that were born with health deficiencies. The funds are used at the recipients discretion to help with extra costs they incur when having a child that faces challenges through their first part of life. It can often be a helpless and unbearable feeling to watch and care for your own child when they are severely ill. This foundation attempts to provide a small dent in the staggering financial burdens young families face through their infant's first months and years of life.

We humbly ask for your personal donation of \$25.00 or more to help us effectively reach out to as many young families that face these unique challenges as possible. Please print this form and fill it out with your donation. All persons or sponsors of the SFH Foundation have the option to remain anonymous or have their name posted on the foundation's website.

Remember there are a lot of challenged young families out there that could use our help. So keep Sarah Faith Hogan Foundation in mind for annual contributions.

From the bottom of our hearts we thank you for your generous donations,

Doug Cabral  
Founding Chair.
